#### Resolutions.

##### Senate Resolution No. 10.

By Senators Stone and Poage:

Whereas, The Brazos River is the longest and largest Texas stream, and is, and throughout all historic time has been, subject to recurrent disastrous floods and overflows; and

Whereas, The people of the Brazos watershed were among the first in the nation to seek to render themselves effective self-help by the creation of the first all-inclusive drainage system conservation and reclamation district through the agency of the Brazos River Conservation and Reclamation District, which was created by act of the legislature of Texas long prior to the creation of the Tennessee Valley Authority; and

Whereas, Such district was created for the purpose of effectively controlling the disastrous floods and preventing the recurrent overflows of said Brazos River and its tributaries; and

Whereas, The people of such district have shown their interest in such undertaking by their years of work and contributions of money, and the State of Texas has proven its belief in the importance of such flood control, and confidence in the Brazos River Conservation & Reclamation District by the diversion of more than \$6,000,000.00 of State

taxes to the use of said district to aid in the creation of the necessary dams, and

Whereas, The Federal government has heretofore allocated the sum of \$30,000,000.00 to the furtherance of this work, and has authorized the Brazos River Conservation and Reclamation District to make all plans on the basis of having such sum available for construction purposes, and said district has actually proceeded with the survey and purchase of damsights, relying on such allocations which have been confirmed on numerous occasions by various officials of the Federal Government; and

Whereas, The District has actually built the roads, purchased land, and Army Engineers have assumed the duty of constructing one of the thirteen major dams included in the approved plan of flood control in said district, and the immediate erection of the other dams of the system is necessary both to protect the people and property of the Brazos Drainage Basin, and the one dam now authorized from loss and destruction by uncontrolled floods; and

Whereas, The Brazos River and several of its major tributaries have within the past week suffered unprecedented floods which have resulted in the loss of many millions of dollars of property, and have rendered two thousand people homeless in one city alone; and

Whereas, Such floods and overflows could be prevented by the erection of the dams for which money has already been allocated; and

Whereas, The people of the Valley who have lost their crops and suffered other losses are in great need of the work that the construction of these dams will provide, and the Brazos River Conservation and Reclamation District is ready and able to proceed with the construction without delay, and the money has already been allocated for this purpose and only needs the order of the President to be made available; Now therefore, be it

Resolved by the Senate of Texas that we respectfully urge the President of the United States to make all of the aforementioned \$30,000,000.00 heretofore allocated to the

use of the Brazos River Conservation and Reclamation District available to said district at once to the end that construction work might be commenced on all these dams, thereby protecting the existing investment, saving the lives, homes and property of the inhabitants of the Brazos Valley from destruction by overflow and providing needed work for the unemployed during the coming winter; and be it further

Resolved that a copy of these resolutions be forwarded by the Secretary of the Senate to His Excellency the Honorable Franklin D. Roosevelt, President of the United States.

Read and adopted.

#### Senate Resolution No. 11.

By Senator Collie:

Whereas, There has recently been organized at the instigation of Governor James V. Allred the Southwestern States Probation and Parole conference, the first meeting having been held at Galveston, Texas, September 2nd and 3rd, 1936, said meeting having been attended by 200 or more persons interested in this important work, and representatives to the first meeting having come from the States of Arkansas, Arizona, Louisiana, New Mexico, Oklahoma and Texas; and

Whereas, Another meeting of the Conference has been called by Governor Allred for December 3rd, 4th and 5th in New Orleans, Louisiana; and

Whereas, The primary purpose of such meeting is to discuss general and specific legislation to be recommended to the Legislatures of the cooperating States; and

Whereas, The subject of a proposed Interstate Compact relating to interstate cooperation in the matter of probation and parole is to be discussed at this meeting; and

Whereas, The vast field of probation and parole offers an excellent opportunity for Texas to incorporate the advances thus far made and assume leadership in this field; now therefore, be it

Resolved that a committee of three Senators be appointed by the Lieutenant Governor to attend this Conference in New Orleans with a view of studying proposed Legislation on the subject of probation and parole and that the expenses of this Committee be defrayed from the Contingent Fund of the Third Called

Session of the 44th Legislature.
